

Exercise Personal Flag

The Business Advisors should distribute sheets and coloured pencils (each person must have this material with him / her online), explaining that, just as each country has its flag, each one must make their own personal flag from six questions:

- What is your biggest individual success?
- What would you like to change about yourself?
- Who is the person you have the most admiration for?
- What is your greatest talent?
- What do you most appreciate in life?
- What are the biggest difficulties and difficulties of working in a team / or with your consultant?

Each question must be answered with a small drawing, symbol, word or short sentences.

After finishing the flags, the Business Advisors must ask each one to present and share the result, highlighting what he found most interesting in each flag and what he found out about himself and the group.
